I am against allowing commercial helicopter flights (or for that matter any mechanized commercial flights) in Bluff.

The issue, as I see it, is what do we want Bluff to be? Is Bluff to be a profit center for a few persons? Even if this is to the detriment of the rest of the residents? Is Bluff to be a place of quiet and immersion in nature? Or little Moab?

I don't know if it is even possible to have commercial helicopter flights from the airport. Even if such flights were able to comply with FAA, etc., I still don't want to see/hear helicopter flights in the town.

The primrose path .....

Keep Bluff Bluff.
