Subject: Bluff Airport

Hi P&Z Committee;

I agree with Gary Liechtenstein's comments made in person.

I'd like to see our airport upgraded.

I'd like to see us use this as an opportunity to seek a grant for development of the airport.

I support trying to get water, electricity, communication, and fire suppression there.

I believe this could have a lot of benefits for our town.

I also strongly support the Bluff Balloon Festival and hope that this would not be impacted by any future regulations.

Thanks for all you do!
