Subject: Helicopter pad comment

At least a one mile buffer should be placed around the town for noise and visual impacts. To protect our guests' experience, who appreciate the quiet of Bluff, Willow Street Cottages votes no on a helicopter pad at Desert Rose Inn. I worked at the Grand Canyon south rim for several years....where helicopter tours occurred....it destroyed the setting and feel of that beautiful national park...it was a real shame. I hope the town of bluff protects its brand as a quiet ecotourist destination.
