Message (200 Words):

**About Me**

People describe me as *sensible, moderate, listener, truthful, and gets things done*. For 25 years, I have brought these qualities to the Bluff Fire Department, Southwest Heritage Association, Bluff City Historic Preservation Association, San Juan School District, and community activities. I have longstanding, collegial relationships with San Juan County, the Bluff Fort, Bluff Elementary School, Bluff Water Works, local business owners, and Town leaders. My extensive community and professional experience have honed leadership qualities that can well-serve Bluff.

**My Platform**

- Develop and preserve sense of community, expand services, preserve local control
- Future-focused problem solving, considering the generation that will inherit Bluff in 2050.
- Bluff should be a community that accepts differing views of quality of life and accommodates diverse perspectives through dialogue and compromise.

**My Agenda**

- ✓ Leverage Town governance, local business, and our strong, non-profit sector to design and build the Bluff of 2050
- ✓ Sit at County and State tables where decisions that affect Bluff are made
- ✓ Promote activities and housing for young families
- ✓ Refresh volunteerism
- ✓ Strengthen relationships between Bluff Water Works and the Town Council
- ✓ Strategize solutions for recycling and secondary water
- ✓ Support locally-owned, moderate business growth
