I am opposed to the Acton's and SITLA's request for disconnect from Bluff.  
The Bluff Aquifer must be protected as our primary water source.  
We, the town are not trying to block all development on the Bluff Bench, but we must protect our primary water source and hence the future of our town.  
Without a protected water source we cease to be a town.  
The Bluff Bench is absolutely part and parcel of our town.  
It is only just and equitable that it remains part of our town.  
Thank you for considering my comments.
