Subject: Petition to disconnect

Mayor and Town Council members,

I am against the Acton's petition to disconnect because that have offered no guarantee to not disturb the Town's aquifer that is situated below their property. For a client who claims they are not looking for a fight they sent an attorney who is very provocative. For example, although I corrected the attorney last spring he still claims the bench roads are not maintained. The Horn, the Horn Pasteur road and the Trading Post spur were graded last April. Last Winter the Town cleaned out the cattle guard on Horn Pasteur Road. The land is winter range for livestock and there is an active corral on the Acton's property.

It is unfortunate that SITLA has partnered with the Acton's attorney because I do support solar energy and I believe the Town could work with SITLA if they separated from the Acton's.

Thank you,

Michael Haviken
