Summary of your public comment: desire to add additional off-premise sign.

### Written Comment:

As a business that is located 2 blocks off the highway; signage is very important to my business, my customer and to community relations. Thank you for recognizing the need for these signs. I would like to ask that there be 2 off premise sign for businesses. There are 2 main entrances to town; it is important to direct traffic from both sides. (entrances)

I would also like the board to consider an equality and fairness issue between "business" & "political" signs. I feel that all of these signs need to be treated equally. - If there are restrictions for 1 type there need to be restrictions for ALL types across the board.

Thank your for all of your work and consideration!

Best Regards, Jennifer Davila - owner La Posada Pintada.
