**Subject:** Fire Mesa Kitchen contract  
**Date:** Monday, April 15, 2024 4:45:09 PM

---

Dear Bluff Town Council members,

As a regular patron of the Cow Canyon Coffee shop, I hope you will take into consideration the importance of giving their owners a good faith adjustment in the cost of using the Fire Mesa Kitchen for cooking their food products.

Kate, Hannah, and Brian have put so much time, energy, and money into making this new business in Bluff a success.

After working with Linda and Malia to come up with the actual costs of using the kitchen, it seems they have all determined a logical contract to continue using the kitchen for their needs. Understandably, Bluff needs to keep the kitchen cost effective as well as helping this new business thrive.

I am personally so proud of the work these young people have put into making an equitable proposal.

To quote Kate, "The idea is that all numbers are based on actual costs, rentable hours are split between regular users and one time users (so there is always room for community events) and things are more affordable so hopefully more rentals happen!"

Please give them the chance to succeed.

Working Today for a better tomorrow

Respectfully,

Anne
