Subject: public comment for todays city council meeting

Hello esteemed council members of the town of Bluff,

My Name is Kourtney Morgan , I am a new member of the community of four corners region and have had the pleasure of working in the Fire Mesa kitchen over the past few months providing the community with fresh baked goods being sold at cow canyon coffee

I would like to add my comment in making the Fire Mesa Kitchen space affordable to all members of the community and adjusting the current rental rate to something accessible for people of all economic backgrounds

it is such a beautiful space to work in and I would Love to see it in use more often than not

I am a Retired employee of Patagonia and am seeking to create a living providing my community with good healthy food options and I can only achieve that goal through affordable work spaces

I hope you will strongly consider making the Fire Mesa Kitchen a communal space for all and a place where entrepreneurs can grow a dream

sincerely,
Kourtney Morgan
