April 15, 2024

Dear Bluff Town Council members,

Regarding Fire Mesa Kitchen rates charged to local small businesses.

I would like to comment that in my opinion one of the highest priorities in setting rates for the Fire Mesa Kitchen should be to ensure that rates are affordable and promote the success of our local small businesses. Young, creative entrepreneurs like the owners of the nascent Cow Canyon Coffee should be encouraged by the City Council, even to the extent of providing small subsidies in the form of favorable usage rates.

I think most of our town residents, myself included, believe that encouraging viable lifestyles for young people to establish a foothold in Bluff is a high priority for the future health of our community. This can be achieved by enacting City policies and regulations that encourage affordability for start-up businesses. The overarching goal should extend to issues that encourage affordable housing, affordable work spaces, and affordable use of City resources like our Fire Mesa Kitchen.

Best Regards,

Leigh Marymor
