Subject: Community Kitchen Price Structure request

This message was sent from outside the company by someone with a display name matching a user in your organisation. Please do not click links or open attachments unless you recognise the source of this email and know the content is safe.

I am in support of a new price structure that allows

1) a lower daily rate that is accessible for all to use that is more in line with other community kitchens in the area

2) a membership rental rate that would reduce cost for frequent users.

A new price structure will allow for increased use of a community resource and make it more accessible to the region. The point of a community kitchen is to be a resource for all, if there are barriers to the use of the kitchen, we should do everything we can to remove those barriers. The kitchen has been sitting primarily unused for too long. Please take this small action to approve a new price structure to make a big impact for our community.

Best,
Molly
