---

I would like to post a speed limit sign on our street since BOB has designated a non existence hiking trail on BML land in Bear Ears we are getting traffic up 7th west and the alley way between along my property. The Stevens I have graveled the road on 7th and I did the alley way from 7th up to Cottonwood. Since neither the BSA nor the Town of Bluff paid for this expense it would seen that either you discuss with BOB taking down the map or you can.

1. Post a speed limit sign.
2. Mange to roadways.
- 3.Close the road off.
4. Do nothing I then will put out spike strips out on the weekends.

Sorry to bother the town with this but enforcement is the key;
